10 years after MIDNIGHT RISING, Oceans of Night deliver their next musical statement: MINDSTORM. Featuring just what you would expect - 60 minutes of crushing, progressive, heavy metal layered underneath an ethereal and atmospheric soundscape - this new Oceans of Night release makes a powerful musical affirmation... one that continues to make an impact through sheer force of will. Through the course of 8 musical releases (4 released under Scott Moshier eponymously), Oceans of Night continue to bridge the worlds of progressive heavy metal and ambient soundscapes to create a style of music that is subtle, dynamic, aggressive and modern. Led by multi-instrumentalist Scott Moshier, and a growing foundation of musical collaborators, Oceans of Night are pushing forward with new vocalists Pablo Zuccalá, Derosnec and April Rach joining Scott Oliva to expand the sound of the ambient, progressive metal style.
