PRICE: \$12.99 ON CD
APPROXIMATE PLAYING TIME: 60:00

The fourth CD from Scott Mosher, DEEP HORIZON, is built upon a strong foundation crushing guitar tones, ambient keyboard sounds, and memorable vocal melodies. This dynamic and ambitious musical journey continues Mosher's path of synthesizing a diverse range of musical influences under the banner of contemporary progressive metal with conceptual digital art and introspective, evocative lyrics. DEEP HORIZON rises from a world where heavy progressive rock and atmospheric soundscapes converge... from melody-driven tracks "Light Years" and "Turning Away", through the crushing dynamics of "Falling Down" and "Zero Hour", and bookended by the progressive epics "The Space Between Lives" and the title track, this CD covers a diverse range of audio content.

DEEP HORIZON features the versatile and powerful vocal talents of Wind Wraith/Live After Death singer Scott Oliva (Inner Strength, Last Vision Black, Driven) and a guest appearance by frequent musical collaborator, Todd Corsa, on guitar on 2 tracks. In addition to arranging, composing and performing all the music, producing the CD, assisting various studio animal companions with nourishment and serving as his own public relations manager, Scott (a graphic artist by trade) designed all the artwork as well. His strong creative vision makes for another distinct and powerful artistic statement.
